Money Talks

Part 4 - PEACE AND A PLAN

Scotty Priest

November 22, 2026

Message

Didn't have a chance to hear the message yet? Watch it **HERE**.

Warm-Up

1. From this series, Money Talks, what scripture, message or idea has made the biggest impact and encouraged you towards action?

Know It

1. **Read** Proverbs 27:23–24 and John 6:12. What do these passages teach us about being intentional and responsible in how we manage the resources God has entrusted to us? How do these biblical principles shape or challenge your perspective on budgeting and managing your finances?

2. **Read** Proverbs 21: 5, 20. What do these verses teach us about planning, discipline, and being wise with our resources? What would having more financial margin make possible in your life and help you move toward greater financial freedom?

3. **Read** Proverbs 6:6-8 and Proverbs 22:7. How do these passages translate to your current daily situation? What stewardship decisions are you making with the future in mind?

4. **Read** Philippians 4:11-13. How have you seen God provide for you in unexpected ways? In what ways would you like to grow in gratitude and contentment in this season of life?

5. From the message: What would enough look like for **you**?

Next Steps

The last point in the sermon notes says - *You don't need to fix everything today. You just need to begin moving in the right direction.*
Read Matthew 6:21 - this is the scripture we started this sermon series with.

Discuss with your group one change you would like to make in order to move toward *financial peace.* Share your end goal and one thing you can implement this week to move in that direction.
