

God is powerful.

Moses and the Sea
Exodus 13:17-18; 14

Today we heard another story about God's awesome power! God is so powerful that He made a dry path for Moses and the people to walk through. There was a wall of water on either side. Have your child retell the story or read it from the Bible as they act it out with our craft. They will separate the water with their fingers to make a path in the water. They can use their fingers or a toy to walk through.
